

Fingal Alerts – Information Sheet

Fingal County Council has successfully completed a pilot of a new free service called **Fingal Alerts**: which provides notification/alerts relating to water outages. **Fingal Alerts** : <https://alerts.fingal.ie/en/> is currently being rolled out and will be used for communications going forward, replacing the current e-mail system to notify customers.

The Fingal Alert system uses a self-registration process and the customer has a choice of medium the communication is delivered in i.e. text, e-mail, and social media. With the **Fingal Alerts** system customers will only receive alerts that are relevant and in proximity to their area(s) of choice (such as home and work).

Additional information about **Fingal Alerts** and how it works can be found by visiting the Council website www.fingal.ie and clicking on the banner “Fingal Alerts” or at <https://alerts.fingal.ie/en/register> .
